for the **PALM OPERATING SYSTEM**

## Playmaker for Palm

### Features:

- Fully animated graphical simulation with top-down view.
- Comes ready-to-play, with 4 exciting teams & playbooks that you can use as-is, or customize.
- Includes CHALKBOARD EDITOR module for realistic play design & practice field testing
- Artificial Intelligence for realistic competitive play.
- Full PC-to-PDA playbook transfer for cross - platform compatibility.
- All for just \$9.95!

## One of the “Best Football Sims ever” comes to the Palm

*Pocket-sized football fantasy game designed for armchair quarterbacks ...  
...but sophisticated enough for coaches*

PLAYMAKER FOOTBALL, the legendary American football simulation originally designed for the Apple Macintosh, is now available for all Palm OS-based platforms, providing an application with unsurpassed richness and refinement for PDA gamers, football fans, and coaches alike.

The “**Chalkboard Editor**” module lets you build your own playbook, designing offensive, defensive, and special teams plays to prepare for any contingency. With your team & playbook ready, it’s time to **play Playmaker**, but be prepared for a battle of wits.

“Zoom In” View lets you get up close & personal

“Zoom Out” View allows you to watch the play unfold

Similar to its desktop cousin, PLAYMAKER for Palm consists of three modules united into one seamless program.

Use the “**Team Draft**” to help customize your team’s skills & abilities --- even mimic your favorite real-life team.

Playmaker Football adapts to your game plan and tendencies in real-time. With all of this sophistication in the “Palm” of your hand, PLAYMAKER sets a new standard for PDA-based sports simulations.

## Challenge your Mind ---- Not your Reflexes

Truth be told, most electronic football games are a test of your fast-twitch muscle fibers or — more than likely — your kid’s. In contrast, PLAYMAKER FOOTBALL is more akin to “moving chess.” It was designed from the outset to be a pure football strategy game that lets you be the coach, calling the plays and the shots. PLAYMAKER’s unique Artificial Intelligence system is customizable, allowing you compete not only against different teams, but different coaching styles as well!

## PLAYMAKER PRINCIPALS

Some 15 years ago, a young software programmer named **Brian Brinkmann** developed the original PLAYMAKER foot ball simulation for the Apple Macintosh. One of the first PC-based electronic football games ever produced, PLAYMAKER was modified for DOS and Windows platforms, selling hundreds of thousands of copies during the '80's & '90's.

As most sports simulations moved from PCs to video gaming platforms, Brinkmann stayed true to his roots, maintaining a cult following --- supported by numerous "virtual" leagues & continual refinement--- that still thrives today. "PLAYMAKER" has always been geared towards adults," says its founder, " and that accounts for its staying power."

In 2001, **Barry Hardek** was coming off of a successful start-up, and searching for new opportunities. A veteran marketing executive from such well-known companies as Zenith, US Robotics, 3Com & Lucent , as well as a self-avowed sports fanatic, Hardek stumbled across PLAYMAKER's PC version, and instantly realized its potential as a PDA-based game. "Palm users are educated, on-the-go adults. They're looking for accessible, yet engaging entertainment, with more depth than your typical Game Boy-style game."

After 2 years of collaboration, such a game is finally here ....

*For the Palm OS*

## The Chalkboard Editor

Ever want to tinker with the "Xs-and-Os" of football play design? The Chalkboard Editor launches you out of your armchair and right into the game, letting you give detailed instructions to each player, from the simplest pass route to the most detailed blocking scheme.

Plays are designed on a virtual chalkboard using more than 25 real-life player instructions. The diversity of plays you can create is limited only by your imagination & the rules of football. For the more PC-oriented user, PLAYMAKER/Desktop is fully compatible with PLAYMAKER for Palm, allowing plays and playbooks to be transferred from your PC to your PDA. You can build your playbook at home, but take your show on the road --- just like the pros!

## Team Draft

The Team Draft module allows you to modify each individual player, based on 5 abilities --- Speed, Strength, Agility, Intelligence, & Discipline --- giving PLAYMAKER the richness & complexity of a real football game.

Team Draft				
Offense		Defense		
77	Steve Ankor	T	1st	
63	Lee Hammer	G	1st	
50	Bud Capton	C	1st	
62	Rod Hammer	G	1st	
76	Jack Hand	T	1st	
30	Will Thrash	HB	1st	
45	Ray Bury	FB	1st	
1	Eric Striker	QB	1st	
81	Speed Holloway	W	1st	
88	James Locke	TE	1st	

Player Data			
Name:	Eric Striker		
String	Position	Number	Symbol
1st	QB	1	●
Spd	[Slider]		100
Str	[Slider]		90
Agi	[Slider]		60
Int	[Slider]		80
Dsp	[Slider]		40
OK		Cancel	Surplus: 0

Intelligent QB's will read the blitz and react accordingly; disciplined lineman will carry out their assignments flawlessly; and speedy linebackers will wreck havoc on the opposing team. Using the Team Draft tool, you can create a roster that resembles you're favorite team --- even one that you coach --- and simulate how they will play against different opponents and playing styles.

## PLAYMAKER for Palm Specifications

- Compatible with PALM 3.5 or higher;
- Memory Requirement - Approximately 650 kb as shipped; will vary with playbook size;
- Fully animated game play with 160 X 160 resolution
